EXPERIENCE

Deloitte USI, Hyderabad, India

2023-2025

Analyst

- Assumed ownership of the team's morning-shift operations within the first year, coordinating daily task execution and leading shift handover discussions across team members and stakeholders.
- Developed and enhanced automation tools for two high-volume ticket categories representing approximately 37% of overall ticket volume (13,000+ annual requests), enabling faster triage, resolution guidance, and workload prioritization across the team.
- Redesigned a manual ticket-processing workflow by creating batch-processing scripts and collaborating with internal support teams to build scalable data-extraction solutions, improving queue management and reducing manual effort.
- Executed monthly maintenance activities for 136 production systems across 68 operational locations and supported maintenance of 58 mission-critical systems, coordinating with multiple teams to complete updates within controlled maintenance windows.
- Represented the team in weekly governance and change-management meetings involving client leadership, regional stakeholders, and project teams to assess operational impact of planned upgrades and modifications.
- Onboarded and mentored new team members through knowledge-transfer sessions, accelerating integration into project operations and reducing dependency on senior resources.
- Received Deloitte Spot Award for contributions to project delivery, operational support, and team effectiveness.
